Previous Hash	000c2866e2d1b4b2eeca7a4c74364d57
Timestamp	2023-06-16 17:54
Nonce	16fd
Hash	0006ea1fb3ab0a1fc5b7d86ffdaff2d25e8

## My Code

```
function SHA256 (input) {
  var digest = Utilities.computeDigest(Utilities.DigestAlgorithm.SHA_256, input);
  var output = "";
  for (i = 0; i < digest.length; i++) {
    var h = digest[i];
    if (h < 0) { h += 256; }
    if (h.toString(16).length == 1) { output += '0'; }
    output += h.toString(16);
  }
  return output;
}

function hashing_function(prev_hash, time, transactions, nonce) {
  var to_hash = prev_hash + time.toString() + transactions.toString() + nonce.toString();
  var hashed_output = SHA256(to_hash);
  return hashed_output;
}
```

```

function mine_a_block(prev_hash, time, transactions, diff) {
  var nonce = 0;
  varhash = hashing_function(prev_hash, time, transactions, nonce);

  //construct target string
  var temp_arr = Array(diff + 1);
  var target_str = temp_arr.join("0");

  //compare first few characters to target
  while (hash.substring(0, diff) !== target_str) {
    nonce++; //increment nonce
    hash = hashing_function(prev_hash, time, transactions, nonce);
  }

  //return object
  var obj_to_return = {};
  obj_to_return["nonce"] = nonce.toString(16);
  obj_to_return["hash"] = hash;

  return obj_to_return;
}

// written by chatgpt cuz this is a dumb formatting thing and i cannot be bothered by it haha
